WASH TROUGHS

Solid Surface

A wide range of wash troughs are available with a solid surface or gel coat (GRP), each with a wide variety of designs, wastes, taps, underframes, and finishes. Available in one piece sizes or bespoke sizes available upon request.

Specification

Flat Deck - Exposed Waste

- 12mm thick acrylic wash troughs available in standard depth of 400mm (bespoke depth available upon request), includes 200mm deep down-stand with MDF substrate frame. Trough can be positioned onto vanity under frame with access panels
- Suitable for deck or wall mounted taps or combination mirror units
- 1no Exposed waste – deck either slopes left or right. Extra wastes available upon request
- Available in one-piece sizes of 600mm, 1200mm, 1800mm, 2400mm or 3000mm. Bespoke sizes available upon request
- Sizes over 3000mm long will be manufactured as 2 units
- Extras: wastes, loose upstand, LED light strip
- Standard Colour: Pure White Only (More colour options available from Corian® or Tristone™ upon request)

**Sloping Deck - Hidden Waste**

- 12mm thick acrylic wash troughs available in standard depth of 550mm (bespoke depth available upon request), includes 150mm deep down-stand with MDF substrate frame. Trough to be positioned onto vanity under frame with access panels
- Suitable for deck or wall mounted taps or combination mirror units
- Hidden waste – deck slopped back
- Coved or loose upstand available upon request
- Available in one-piece sizes of 600mm, 1200mm, 1800mm, 2400mm or 3000mm. Bespoke sizes available upon request
- Sizes over 3000mm long will be manufactured as 2 units
- Extras: wastes, loose upstand, LED light strip
- Standard Colour: Pure White Only (More colour options available from Corian® or Tristone™ upon request)

RECEPTION COUNTERS

Custom Designed

Reception desks act as the first point of contact for any visitor. The reception desks have many options available, meaning designers and specifiers can create reception desks to suit specification requirements. It can also be made to complement public and staff areas, from restaurant condiment stations to rest area tea stations.
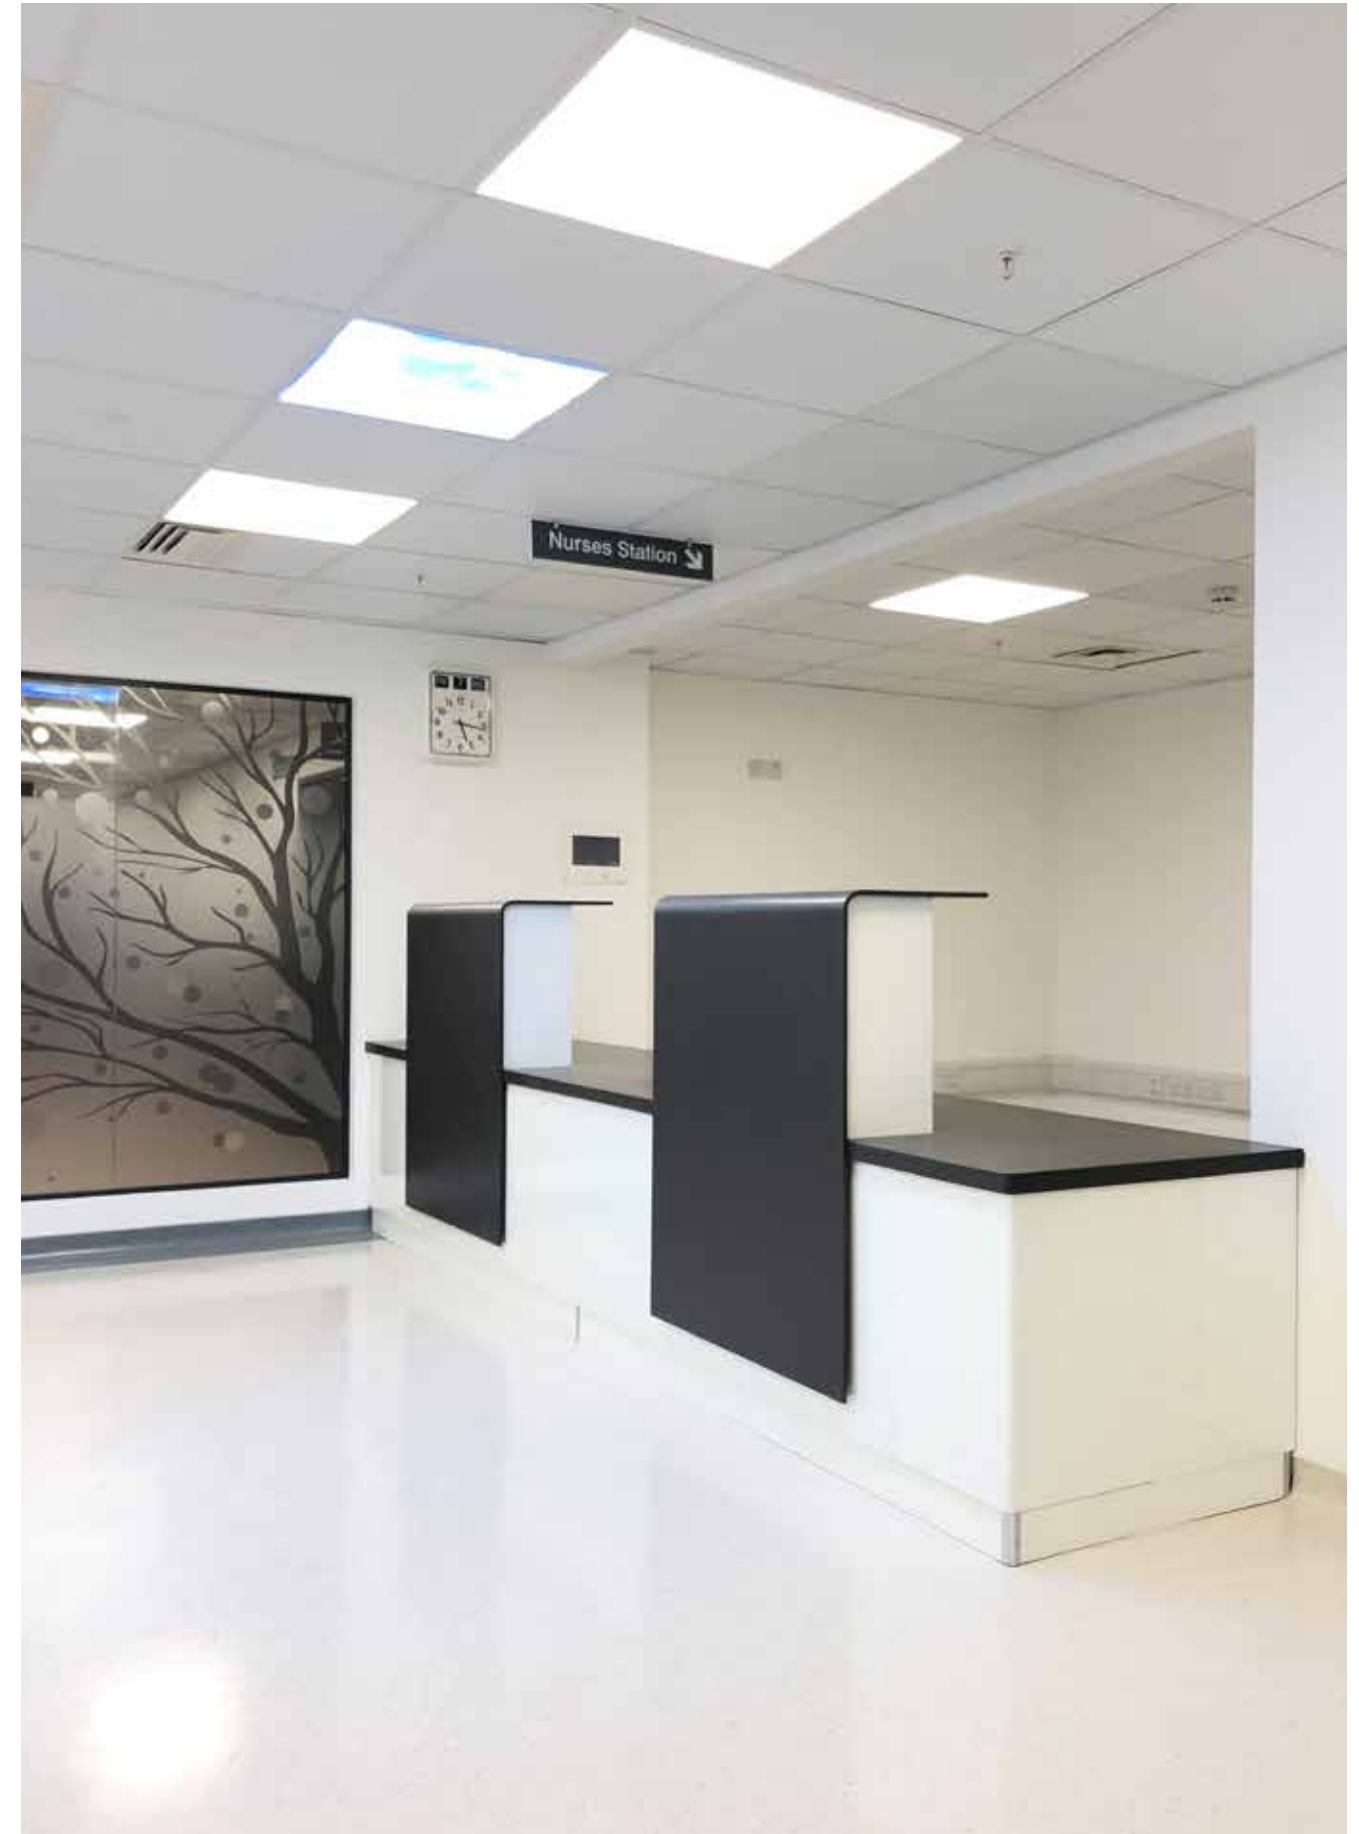

ACCESSIBLE WASHROOMS

Legislation

Washroom requirements for the disabled are laid down in Part M of the building regulations. Working in conjunction with the guidance issued in HBN 00-002 which specifies the washroom sizes & locations. They have been designed to standardise the facilities available to all different types of disability. The Equalities Act (2010) runs alongside these guidelines to offer best practice advice on discrimination and gender-neutral washrooms.

It is important that you understand these requirements.

Wheelchair Washrooms

- The regulations stipulate that the internal dimensions of an accessible washroom for wheelchair users should be a minimum of 1500mm wide x 2200mm deep

- The sanitaryware items must be laid exactly to these regulations, both in location and dimensions (see guidance sheet opposite)

- You can purchase DOC sanitaryware as a complete pack to ensure that you meet the regulations

- They are commonly Unisex, but can be planned separately according to the design

Ambulant Disabled Cubicles

An ambulant disabled cubicle is designed for people with flexibility issues. They are required in addition to a wheelchair accessible washroom. To comply with these regulations, you will need:
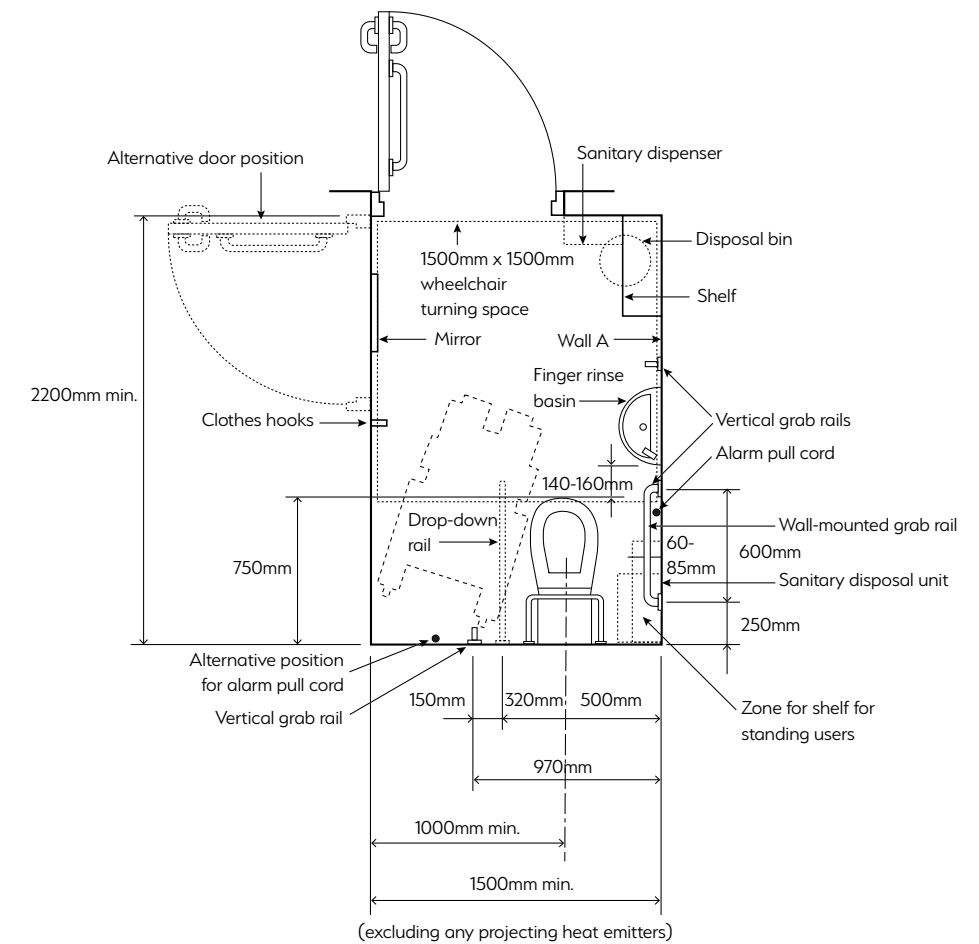

- Minimum width of the cubicle to be 800mm

- An outward opening door

- A space of 750mm x 750mm to allow for any assistance

- Set of 3no 600mm and 1no 450mm suitably coloured hand grips (laid out in accordance with the guidance)
