

Shaping visions, changing views

SHANKILL WELLBEING & TREATMENT CENTRE, BELFAST

Enhancing a modern aesthetic with fully glazed partitioning system

Shankhill Wellbeing Centre in Belfast needed space division whilst retaining an open and transparent work environment.

Ocula™ FS25 and FT105 was installed using single and twin glazed options. The project utilised frameless glass doors and flush twin glazed doors, complemented by the use of brushed aluminium ironmongery. The finished project provided a modern design to the office space.

Ocula™ FS25 and FT105 is a fully glazed frameless partitioning system that combines aesthetics with outstanding fire and acoustic performances. Designed to offer specifiers the opportunity to create partitioning without vertical mullions to a maximum height of 4000mm, the system is available in Single, 58mm Twin Glazed and 105mm Twin Glazed options and offers seamless integration into drywall. Ocula™ FS25 can also be built to provide up to 25mm deflection as standard.
